

80W SOUND SPEAKER

LTS.EC2880

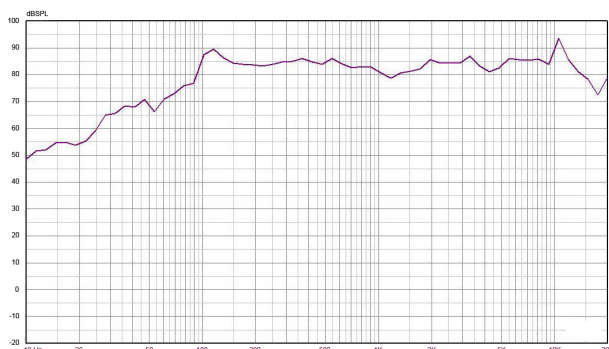

This speaker range combines very good price performance ratio. It is designed for surface mounting. Trapezoidal shape allows better integration.

This range of 80W 2-way speakers has a 8" woofer and a tweeter. At the back, there is a selector to control the power setting.

The speaker is delivered with its invisible mounting bracket and the clamping key to clamp the speaker on the holder.

Frequency response
