

GARDEN SPEAKER OUTDOOR USE - 20W

LTS.GARDEN

LINEARSOUND offers a complete range of dedicated speakers for outdoor use. The series of garden speaker fits perfectly into the vegetation.

The GARDEN is made of ABS composite materials and may be fixed to the ground. With its green color, it will blend perfectly in the countryside. The GARDEN has been designed for outdoor use (IP64) and can be buried up to 5 cm of the protective foam. Its bandwidth is high quality and the ground effect provides a very good dynamics at low frequencies.

APPLICATIONS

- General sound,
- Public place,
- Holiday center,
- All types of outdoor applications, ...
