

TABLE INTERCOM SUBSTATION 2 CHANNELS LC3.SS1002

This table intercom substation, to imbed, is designed for installations which need a wall mounting.

This device is stable and efficient. It has a flexible configuration, a bidirectional communication, a clear and powerful sound. This intercom station is easy to use.

Specifications

Pre-ampli

Micro impedance	Dynamic 200 ohms
Micro gain to the intercom line	+49dB
Bandwidth	40Hz - 8000Hz +/-2dB

Post-ampli

Load impedance	50 - 2000 ohms
Output level	+17dB
Distorsion	< 0.1% (1000Hz)
Gain of the line to the output	+31dB
Bandwidth	200Hz - 800Hz +/-2dB

Sidetone

Adjustable range	>32dB
Headset	Dynamic 50 - 2000 ohms
Micro	Dynamic 100 - 600 ohms
Supply	AC 90-260V / 50-60Hz
Output voltage	24V DC
Environment	0 - 70°C
Dimensions	210x114x54mm
Weight	0.56kg
