

ANTENNA DISTRIBUTOR

LTS.WMSAD4P

The WMSDA4P uses a new amplified circuit conception with low noise. With 8 channels, a low loss antenna, a separate circuit, an automatic selection for 4 individual channels, the receiver can be coupled to many antennas. The BNC connector assures the easy link and installation between the units.

Specifications

Input impedance	50 Ohm
Output impedance	50 Ohm
Antenna input plug	BNC
Antenna output plug	BNC
Gain	3 dB
Frequency band	200 MHz
Power supply	DC 12-18 V 300 mA
Weight	2 kg
Dimensions	45 x 410 X 160 mm, 19P 1U
