

BELT PACK RECEIVER LC3.VGR

This audio transmission system is designed to be easy to use. Light and compact, the transmitter and the receiver allow a good sound quality. The voice from the transmitter can be heard very clearly on each receiver. With this system, there is no background noise or reverberation.

Specifications

Frequency range	640 ~ 865MHz
Switching bandwidth	Max. 24MHz
RF output	10mW (according to regulation)
Channels	Pre-programmed 16 switchable channels
Max. deviation	30 kHz, with level limiting
Dynamic range	> 80 dB
THD	< 2 %
Antenna	Built-in loop antenna
Battery type	1.2 V (Ni-MH.1600 mAh) x 2 AA-type rechargeable battery 1.5V x 2 AA-type Alkaline battery
Dimensions	27x66x98 mm
Weight	140g (with batteries)
