

TABLE INTERCOM SUBSTATION 1 CHANNEL LC3.SS1001

This SS1001 substation can be used with any main intercom station from LINEARCOM3000 range.

It can be used for many applications : reports bus, show, TV channels, ... The substation connection is made by cable.

Stable and reliable, it is devoid of external interference. Its configuration is flexible, bidirectional, clear and simple.

Specifications

Pre-ampli (From micro to ligne)

Micro headset impedance	200 ohms
Voltage gain	49 ± 3dB
Bandwidth	40Hz - 8000Hz +/-2dB

Headset ampli

Rated load impedance	200 Ohms
Voltage gain	31 ± 3dB
Harmonic distortion	< 0.1% (1000Hz)
Bandwidth	200Hz - 800Hz +/-2dB
SNR	>72dB
Supply	<120mA
Power	12 - 30V DC
Environment	-10 to 55°C
Dimensions	105x87x48mm
